OK Thanks! I'll give Darcy a heads-up about that.

Hi Valois – I just saw both your email & your calendar invite. I recommend we let Darcy know that the Chairman may be on the call next week, and we may need to invite her as well. Please let me know if you have questions. Thanks! - Kim

Subject: outcome of informational web conference with Cheyenne River Sioux Tribe representatives - can well have a quick call on Wednesday 2:00-2:30 to discuss?

Hello everyone,

I had an informational web conference with the Cheyenne River Sioux Tribe today at 2:00. The purpose of the call was to review the Dewey-Burdock admin record. The THPO, Steve Vance, and the Environmental Director, Dave Nelson, were on the call. They requested I hold off on the presentation and reschedule the web conference next week or Nov 1 or 2 so

Chairman Frazier and their legal counsel from Frederick Peebles and Morgan could be present to hear the information and ask questions.

They also asked that I check with EPA attorneys about the impact that any future executive orders affecting tribal consultation would have on our Dewey-Burdock consultation process and provide that information during the web conference.

Now that Chairman Frazier and their attorney will be joining the web conference, I would like to have someone join me on the EPA side. There is a window from 2:00 – 2:30 on Wednesday that we are all free. Could we have a quick call to talk about who should be on the web conference with me, please? I will send the invite with the call-in information.

It would also be helpful to make sure I am on the right track with this web conference. Below is the original request I received for the technical info. In reply, I sent Nicole the web link to the Dewey-Burdock admin record. Then I asked if the Tribe would be interested in holding a web conference to review the info in the admin record.

Thanks!

Valois

Dear Ms. Shea,

I received your voicemail last week. Before we begin discussing scheduling consultation, the Tribe would like to make sure that it has all of the technical reports and other materials that would be relevant to the potential impacts of the proposed project on its treaty rights, reserved water rights, and religious rights. How do you propose that we ensure that we have all of that information? We are equipped to host an electronic file transfer. Please advise. I look forward to discussing with you further.

Best regards,

Nicole Ducheneaux
